# 1 Equations

Given that

$$\frac{\hat{\partial} f_i}{\hat{\partial} v_c} = \frac{\partial f_{i+1}}{\partial v_c} + \left( \frac{\partial \phi_i}{\partial v_c} * \frac{\partial f_{i+1}}{\partial v_i} \right) \tag{1}$$

Then

$$\begin{aligned} \frac{\hat{\partial}}{\hat{\partial} v_b} \left[ \frac{\hat{\partial} f_i}{\hat{\partial} v_c} \right] = & \frac{\partial^2 f_{i+1}}{\partial v_b \partial v_c} + \left( \frac{\partial^2 \phi_i}{\partial v_b \partial v_c} * \frac{\partial f_{i+1}}{\partial v_i} \right) + \left( \frac{\partial \phi_i}{\partial v_c} * \frac{\partial^2 f_{i+1}}{\partial v_b \partial v_i} \right) \\ & + \left( \frac{\partial \phi_i}{\partial v_b} * \frac{\partial^2 f_{i+1}}{\partial v_i \partial v_c} \right) + \left( \frac{\partial \phi_i}{\partial v_c} * \frac{\partial \phi_i}{\partial v_b} * \frac{\partial^2 f_{i+1}}{\partial v_i \partial v_i} \right) \end{aligned} \tag{2}$$

It then follows that

$$\begin{aligned} \frac{\hat{\partial}}{\hat{\partial} v_a} \left[ \frac{\hat{\partial}}{\hat{\partial} v_b} \left( \frac{\hat{\partial} f_i}{\hat{\partial} v_c} \right) \right] = & \frac{\partial^3 f_{i+1}}{\partial v_a \partial v_b \partial v_c} + \left( \frac{\partial^3 \phi_i}{\partial v_a \partial v_b \partial v_c} * \frac{\partial f_{i+1}}{\partial v_i} \right) + \left( \frac{\partial^2 \phi_i}{\partial v_b \partial v_c} * \frac{\partial^2 f_{i+1}}{\partial v_a \partial v_i} \right) \\ & + \left( \frac{\partial^2 \phi_i}{\partial v_a \partial v_c} * \frac{\partial^2 f_{i+1}}{\partial v_b \partial v_i} \right) + \left( \frac{\partial \phi_i}{\partial v_c} * \frac{\partial^3 f_{i+1}}{\partial v_a \partial v_b \partial v_i} \right) \\ & + \left( \frac{\partial^2 \phi_i}{\partial v_a \partial v_b} * \frac{\partial^2 f_{i+1}}{\partial v_i \partial v_c} \right) + \left( \frac{\partial \phi_i}{\partial v_b} * \frac{\partial^3 f_{i+1}}{\partial v_a \partial v_i \partial v_c} \right) \\ & + \left\{ \left[ \left( \frac{\partial^2 \phi_i}{\partial v_a \partial v_c} * \frac{\partial \phi_i}{\partial v_b} \right) + \left( \frac{\partial \phi_i}{\partial v_c} * \frac{\partial^2 \phi_i}{\partial v_a \partial v_b} \right) \right] * \frac{\partial^2 f_{i+1}}{\partial v_i \partial v_i} \right\} \\ & + \left( \frac{\partial \phi_i}{\partial v_b} * \frac{\partial \phi_i}{\partial v_c} * \frac{\partial^3 f_{i+1}}{\partial v_a \partial v_i \partial v_i} \right) \\ & + \frac{\partial \phi_i}{\partial v_a} * \left[ \frac{\partial^3 f_{i+1}}{\partial v_i \partial v_b \partial v_c} + \left( \frac{\partial^2 \phi_i}{\partial v_b \partial v_c} * \frac{\partial^2 f_{i+1}}{\partial v_i \partial v_i} \right) + \left( \frac{\partial \phi_i}{\partial v_c} * \frac{\partial^3 f_{i+1}}{\partial v_i \partial v_b \partial v_i} \right) \right. \\ & \left. + \left( \frac{\partial \phi_i}{\partial v_b} * \frac{\partial^3 f_{i+1}}{\partial v_i \partial v_i \partial v_c} \right) + \left( \frac{\partial \phi_i}{\partial v_b} * \frac{\partial \phi_i}{\partial v_c} * \frac{\partial^3 f_{i+1}}{\partial v_i \partial v_i \partial v_i} \right) \right] \end{aligned} \tag{3}$$

Which leads to

$$
\begin{aligned}
